

# SEMINOLE IMPROVEMENT DISTRICT

## REQUEST TO RELOCATE CONSTRUCTION WATER METER

Relocation Requests for construction meters must be submitted through this application. Download this form to your computer, then complete. Once complete, use the SUBMIT button at the bottom of the application to send for processing. You can also complete the application and attach to an email and send to [SID@myUtilityDirect.com](mailto:SID@myUtilityDirect.com).

The Palm Beach County Fire Marshall allows only one (1) meter per hydrant and requires one (1) clear fire hydrant between each metered hydrant. There is a \$20.00 Meter Relocation Fee and it will appear on your next bill.

If you have any questions please contact our customer service center at 1-877-794-7721, Monday through Friday from 9:00 am to 5:00 pm ET.

SID account number  
or Meter ID

Application Date

I am requesting to RELOCATE an existing construction meter that is currently in use to another location within the SID service area. I understand that there is a \$20.00 fee associated with any relocation and only a representative from SID is allowed to relocate the construction meter.

Your signature, as an authorized signer for the named Business, confirms that you agree to the following:

- You are requesting the relocation of a construction water meter.
- Water use within the confines of the City of Westlake must be approved by Seminole Improvement District (SID).
- Pressurized water must pass through a meter attached directly to an approved backflow prevention device.
- Water passing through construction meters is not for human consumption.
- Construction meter water may only be used for non-potable applications such as temporary irrigation, plumbing testing, toilet and wash water and other non-consumption uses.

The contractor or user shall post signs at all water outlets served with construction meter water that read, **“Non-Potable Water – DO NOT DRINK”**.

Customers are responsible for the maintenance and security of construction meters. Customers will forfeit entire deposits for missing meters. A prorated amount for a damaged meter will be assessed by SID. The meter may be chained, locked and sealed for identification. The chain and seal must remain intact. Removal will result in a tampering fee being assessed to the account.

SID will install construction meters at specific locations and customers will be billed for all appropriate fees and charges. Construction meters may only be moved by SID personnel. There is a \$20.00 meter relocation fee that will be billed on your next bill.
